2008-2011
Refugio Police
Department

Specializing in maintenance, implementation, and operation of communications equipment from handheld devices to satellite communication sites.

Responsible for case management, counseling, and ensuring accountability of over 500 service members as the senior enlisted person in charge of Naval Air Station Temporary Assignment Command. Designed and implemented a tracking system with Microsoft Excel and Outlook to account for and assign members to temporary assignments cohesive with their limitations, accommodations, treatment regimens, and abilities. Provided guidance and coordinated resources to prepare them to either return to active duty or re-acclimate into civilian life, including education and advancement programs.

Provided assistance and humanitarian relief programs ranging from disaster recovery, refugee recovery and repatriation, building and restoring infrastructure, and other operations.

Designed and implemented Antenna Maintenance Electromagnetic Awareness Training. Trained over 500 students. Created a Microsoft PowerPoint presentation that included interactive photo comparisons of proper and improper installation and maintenance of EMI-specific items and fixes. Included in this program were a hands-on demonstration, practical exercise, and examination of active US Navy ships. This program became mandatory for all vessels operating in the 7th Fleet Area of Responsibility.

Familiar with federal, state, and naval operational safety regulations, ensuring compliance and reporting violations and discrepancies.

Trained 200 service members in operation and troubleshooting deployable manpack satellite radios in preparation for short-notice deployment. Quick

Revised 2021-2022

1989-2019
United States
Navy

reference handouts for operation and troubleshooting designed using Microsoft Word and distributed for aid in operation while deployed in a remote environment.

Provided CPR training to over 20 service members
