***** Note to Student *****

Student Success is our number one priority at Coastal Bend College and we realize that prompt, effective communication plays a significant role in achieving that goal. It is vitally important that you have the proper contact information for your instructor. This should include their phone number, email address, and if applicable, their office number, and office hours. If you ever have any problems contacting your instructor, or do not receive a prompt response to your inquiries, please contact the Assistant Dean of Workforce Training, or the Dean of Workforce, as soon as possible. Their contact information is provided below:

“For students in this course who may have a criminal background, please be advised that the background could keep you from being licensed by the State of Texas. If you have a question about your background and licensure, please speak with your faculty member or the Assistant Dean. You also have the right to request a criminal history evaluation letter from the applicable licensing agency.”

We wish you all the best in your education and encourage you to contact us if you have any questions or concerns.

Keeping student success in sight, faculty in each of the courses will review with students, course information with specific reading schedules, assignments, and testing information during the first week of class. Additionally, the course information will be posted to Blackboard (THECB 60x30TX compliance).

Course Description:
The course traces the development of IT systems in health care and public health, beginning with the experiments of the 1950s and 1960s and culminating in the HITECH Act. Introduces the concept of meaningful use. It also studies how health care policy developed during the same time period as a reflection of developments in technology.

Semester Hours Credit: 3

Lecture Lab Hours: 2 / 4
Prerequisite: None

Articles and web pages as identified in the course are part of the texts of the course and are provided as links in Blackboard.

Teaching Methods:
Class is taught using Lecture, Class assignments, assessments [tests], and a written report.

End of Course Outcomes: Upon successful completion of this course the student will:
1. Explain the rationale for elements of the HITECH Act in terms of the history of health IT;
2. Describe the background of today's health care policy landscape including EHR, HIE, CDS, applications in Public Health, and relevant professional organizations;
3. Describe the history of Health IT and the electronic health record in the U.S.;
4. Describe how legislation related to privacy and security of electronic health information has evolved in the U.S.;
5. Discuss evolution of health care policy in the United States.
6. Discuss evolution of financial incentives in HIT.

Evaluation Methods:
1. Exams and Discussion based questions.
2. A written essay of 3-5 pages, to include referenced sources of information.
3. Laboratory Exercises
4. Classroom Lectures {unless the course is taught Internet only}

Student Learning Outcomes:
The students will utilize critical thinking skills by analyzing the history of technology and health care policy related to health care delivery and payment, demonstrate inquiry skills in doing research to understand how health care policy has developed in the United States and its relation to information technology, and synthesis of information in being able to collect information and write a short paper that includes information about a given topic.

Assessment: Lectures
The assessment will be conducted by writing a short, 3-5 page paper on a topic related to health information technology.

Target: Lectures
At least 90% of the student will score 75% or higher on the paper. A successful paper will be grammatically correct, clearly formatted, and accurate as to information, and show that the student has thought about and analyzed the information.

Assessment: Laboratory
The assessment is done by a short discussion question covering the topic of the relationship of technology to nursing care.

Learning Innovation Excellence Leadership Diversity Respect Service Integrity Collaboration Communication

At all times, in all ways, the student is at the heart of all we do.
Target: Laboratory
At least 90% of the student will score 75% or higher on the discussion question.
