*****NOTE TO STUDENT*****

Student success is our number one priority at Coastal Bend College and we realize that prompt, effective communication plays a significant role in achieving that goal. It is vitally important that you have the proper contact information for your instructor. This should include their phone number, email address, and if applicable, their office number, and office hours. If you ever have any problems contacting your instructor, or do not receive a prompt response to your inquiries, please contact the Assistant Dean of Academics, or the Dean of Academics, as soon as possible. Their contact information is provided below:

<p>Zachary Suarez, Dean of Academics (361) 354-2722 zsuarez@coastalbend.edu</p>	<p>Kayla D. Jones, Assistant Dean of Academics (361) 354-2532 kdjones@coastalbend.edu</p>
--	--

We wish you all the best in your education and encourage you to contact us if you have any questions or concerns.

Keeping student success in sight, faculty in each of the courses will review with students, course information with specific reading schedules, assignments, and testing information during the first week of class. Additionally, the course information will be posted to Blackboard (THECB 60x30TX compliance).

Course Description: The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value.

Semester Hours Credit: 3

Lecture/Lab Hours: 3-0

Prerequisite: Meet TSI College-readiness standard for Mathematics or equivalent

Textbook(s): (Required) MyMathLab Student Access Kit, 4th edition **ISBN:** 9780321199911

(Optional) College Mathematics for Business, Economics, Life Sciences & Social Sciences Plus NEW MyMathLab with Pearson eText- Access Card Package **ISBN:** 9780321784834

Student Learning Outcomes:

Upon successful completion of this course, students will:

1. Apply elementary functions, including linear, quadratic, polynomial, rational, logarithmic, and exponential functions to solving real-world problems.
2. Solve mathematics of finance problems, including the computation of interest, annuities, and amortization of loans.
3. Apply basic matrix operations, including linear programming methods, to solve application problems.
4. Demonstrate fundamental probability techniques and application of those techniques, including expected value, to solve problems.
5. Apply matrix skills and probability analyses to model applications to solve real-world problems.

Course Outline:

Evaluation Methods: Please see individualized instructor policies for course evaluation methods. Students will be assessed on the same measure, across each discipline, as per CBC guidelines.
